

adjustment on account of prior experience is required. If the contributions do not exceed the initial 5-percent limitation in the first taxable year to which this limitation applies, the taxpayer need not submit actuarial data for such year.

(b) For the first taxable year following the first year to which the initial 5-percent limitation applies, and for every fifth year thereafter, or more frequently where preferable to the taxpayer, the taxpayer shall submit with his return an actuarial certification of the amount reasonably necessary to provide the remaining unfunded cost of past and current service credits of all employees under the plan with a statement explaining all the methods, factors, and assumptions used in determining such amount. This amount may be determined as the sum of (1) the unfunded past service cost as of the beginning of the year, and (2) the normal cost for the year. Such costs shall be determined by methods, factors, and assumptions appropriate as a basis of limitations under section 404(a)(1)(C). Whenever requested by the district director, a similar certification and statement shall be submitted for the year or years specified in such request. The district director will make periodical examinations of such data at not less than 5-year intervals. Based upon such examinations the Commissioner will reduce the limitation under section 404(a)(1)(A) below the 5-percent limitation for the years with respect to which he finds that the 5-percent limitation exceeds the amount reasonably necessary to provide the remaining unfunded cost of past and current service credits of all employees under the plan. Where the limitation is so reduced, the reduced limitation shall apply until the Commissioner finds that a subsequent actuarial valuation shows a change to be necessary. Such subsequent valuation may be made by the taxpayer at any time and submitted to the district director with a request for a change in the limitation. See, however, paragraph (d) of this section with respect to taxable years to which the limitation under section 404(a)(1)(A) does not apply.

(c) For the purpose of limitations under section 404(a)(1)(A), "compensa-

tion otherwise paid or accrued" means all of the compensation paid or accrued except that for which a deduction is allowable under a plan that qualifies under section 401(a), including a plan that qualifies under section 404(a)(2). Where two or more pension or annuity plans cover the same employee, under section 404(a)(1)(A) the deductions with respect to each such plan are subject to the limitations applicable to the particular plan and the total deductions for all such plans are also subject to the limitations which would be applicable thereto if they constituted a single plan. Where, because of the particular provisions applicable to a large class of employees under a plan, the costs with respect to such employees are nominal in comparison with their compensation, after the first year to which the initial 5-percent limitation applies, deductions under section 404(a)(1)(A) are subject to limitations determined by considering the plan applicable to such class as if it were a separate plan. Deductions are allowable to the extent of the applicable limitations under section 404(a)(1)(A) even where these are greater than the applicable limitations under section 404(a)(1)(B) or section 404(a)(1)(C).

(d) The limitation under section 404(a)(1)(A) shall not be used for purposes of determining the amount deductible for a taxable year of the employer which ends with or within a taxable year of the pension trust during which it is not exempt under section 501(a), or, in the case of an annuity plan, during which it does not meet the requirements of section 404(a)(2), or which ends after the trust or plan has terminated. See § 1.404(a)-7 for rules relating to the limitation which is applicable for purposes of determining the amount deductible for such a taxable year of the employer.

[T.D. 6500, 25 FR 11685, Nov. 26, 1960, as amended by T.D. 6534, 26 FR 515, Jan. 20, 1961]

§ 1.404(a)-5 Pension and annuity plans; limitations under section 404(a)(1)(B).

(a) Subject to the applicable general conditions and limitations (see § 1.404(a)-3), under section 404(a)(1)(B),

deductions may be allowed to the extent of limitations based on costs determined by distributing the remaining unfunded cost of the past and current service credits with respect to all employees covered under the trust or plan as a level amount or level percentage of compensation over the remaining service of each such employee except that, as to any three individuals with respect to whom more than 50 percent of such remaining unfunded cost attributable to such individuals shall be distributed evenly over a period of at least five taxable years. See, however, paragraph (e) of this section with respect to taxable years to which the limitation under section 404(a)(1)(B) does not apply.

(b) The statutory limitation for any taxable year under section 404(a)(1)(B) is any excess of the amount of the costs described in paragraph (a) of this section for the year over the amount allowable as a deduction under section 404(a)(1)(A).

(c) For this purpose, such excess, adjusted for prior experience, may be computed for each year as follows, all determinations being made as of the beginning of the year:

(1) Determine the value of all benefits expected to be paid, after the beginning of the year for all employees, any former employees, and any other beneficiaries, then covered under the plan.

(2) If employees contribute under the plan, determine the value of all contributions expected to be made after the beginning of the year by employees then covered under the plan.

(3) Determine the value of all funds of the plan as of the beginning of the year.

(4) Determine the amount remaining to be distributed as a level amount or as a level percentage of compensation over the remaining future service of each employee by subtracting from subparagraph (1) of this paragraph the sum of subparagraphs (2) and (3) of this paragraph.

(5) Determine the value of all compensation expected to be paid after the beginning of the year to all employees then covered under the plan.

(6) Determine an accrual rate for each employee by dividing subpara-

graph (5) of this paragraph into subparagraph (4) of this paragraph.

(7) Compute the excess under section 404(a)(1)(B) for the year by multiplying the compensation paid to all employees covered under the plan during the year by any excess of subparagraph (6) of this paragraph over 5 percent. In general, where this method is used, the limitation under section 404(a)(1)(B) will be equal to the excess so computed without further adjustment on account of prior favorable experience, provided all the factors and assumptions used are reasonable in view of all applicable considerations (see § 1.404(a)-3) and provided subparagraph (5) of this paragraph is not less than five times the annual rate of compensation in effect at the beginning of the year.

(d) Instead of determining the excess deductible under section 404(a)(1)(B) by the method shown in paragraph (c), such excess may be based upon cost determined by some other method which is reasonable and appropriate under the circumstances. Thus, such excess may be based on the amounts necessary with respect to each individual covered employee to provide the remaining unfunded cost of all his benefits under the plan distributed as a level amount over the period remaining until the normal commencement of his retirement benefits, in accordance with other generally accepted actuarial methods which are reasonable and appropriate in view of the provisions of the plan, the funding medium, and other applicable considerations.

(e) The limitation under section 404(a)(1)(B) shall not be used for purposes of determining the amount deductible for a taxable year of the employer which ends with or within a taxable year of the pension trust during which it is not exempt under section 501(a), or, in the case of an annuity plan, during which it does not meet the requirements of section 404(a)(2), or which ends after the trust or plan has terminated. See § 1.404(a)-7 for rules relating to the limitation which is applicable for purposes of determining the amount deductible for such a taxable year of the employer.

[T.D. 6500, 25 FR 11686, Nov. 26, 1960, as amended by T.D. 6534, 26 FR 515, Jan. 20, 1961]

§ 1.404(a)-6 Pension and annuity plans; limitations under section 404(a)(1)(C).

(a) *Application to a taxable year of the employer which ends with or within a taxable year of the pension trust or annuity plan for which it is exempt under section 501(a) or meets the requirements of section 404(a)(2).* (1) The rules in this paragraph are applicable with respect to the limitation under section 404(a)(1)(C) for taxable years of the employer which end with or within a taxable year of the pension trust for which it is exempt under section 501(a), or, in the case of an annuity plan, during which it meets the requirements of section 404(a)(2). See paragraph (b) of this section for rules relating to the limitation under section 404(a)(1)(C) for other taxable years of the employer.

(2) Subject to the applicable general conditions and limitations (see § 1.404(a)-3), in lieu of amounts deductible under the limitations of section 404(a)(1)(A) and section 404(a)(1)(B), deductions may be allowed under section 404(a)(1)(C) to the extent of limitations based on normal and past service or supplementary costs of providing benefits under the plan. "Normal cost" for any year is the amount actuarially determined which would be required as a contribution by the employer in such year to maintain the plan if the plan had been in effect from the beginning of service of each then included employee and if such costs for prior years had been paid and all assumptions as to interest, mortality, time of payment, etc., had been fulfilled. Past service or supplementary cost at any time is the amount actuarially determined which would be required at such time to meet all the future benefits provided under the plan which would not be met by future normal costs and employee contributions with respect to the employees covered under the plan at such time.

(3) The limitation under section 404(a)(1)(C) for any taxable year to which this paragraph applies is the sum of normal cost for the year plus an amount not in excess of one-tenth of the past service or supplementary cost as of the date the past service or supplementary credits are provided under the plan. For this purpose, the normal

cost may be determined by any generally accepted actuarial method and may be expressed either as (i) the aggregate of level amounts with respect to each employee covered under the plan, (ii) a level percentage of payroll with respect to each employee covered under the plan, or (iii) the aggregate of the single premium or unit costs for the unit credits accruing during the year with respect to each employee covered under the plan, provided, in any case, that the method is reasonable in view of the provisions and coverage of the plan, the funding medium, and other applicable considerations. The limitation may include one-tenth of the past service or supplementary cost as of the date the provisions resulting in such cost were put into effect, but it is subject to adjustments for prior favorable experience. See § 1.404(a)-3. In any case, past service or supplementary costs shall not be included in the limitation for any year in which the amount required to fund fully or to purchase such past service or supplementary credits has been deducted, since no deduction is allowable for any amount (other than the normal cost) which is paid in after such credits are fully funded or purchased.

(b) *Application to a taxable year of the employer which does not end with or within a taxable year of the pension trust or annuity plan for which it is exempt under section 501(a) or meets the requirements of section 404(a)(2).* (1) The rules in this paragraph are applicable with respect to the limitation under section 404(a)(1)(C) for taxable years of the employer which end with or within a taxable year of the pension trust during which it is not exempt under section 501(a), or, in the case of an annuity plan, during which it does not meet the requirements of section 404(a)(2), or which end after the trust or plan has terminated. Since contributions paid in such taxable years of the employer are not deductible under section 404(a)(1) or (2) (except as provided in section 404(a)(6)), the limitation under section 404(a)(1)(C) for such taxable years relates only to the amount of any excess contributions that may be carried over to such taxable years under section 404(a)(1)(D).
